OUR STORY

A LEGACY FORGED IN STEELS

For over 50 years, Gopinath has been a trusted name in iron and steel furniture, built on a foundation of quality, reliability, and strong customer relationships. Starting with finance solutions that helped families and businesses access essential products, the company earned lasting market trust that paved the way for its manufacturing journey.

In 1974, Gopinath began manufacturing durable iron cupboards from a modest 500 sq. ft. unit. As the business grew, Mr. Vasudev envisioned a premium future, leading to the creation of ALMIRO, a brand that continues to uphold the values of craftsmanship, integrity, and trust.

THE JOURNEY

FROM 500 SQ. FT. TO A 1-LAKH SQ. FT. VISION

Our journey reflects steady growth, quality craftsmanship, and decades of customer trust. From a small manufacturing unit to a respected industry name, Gopinath and ALMIRO continue to build for the future.

1973 – THE BEGINNING

Started with two craftsmen in a 500 sq. ft. unit, manufacturing durable iron cupboards.

THE RISE

Expanded across residential and commercial markets through a quality-first approach.

ALMIRO

Launched by Mr. Vasudev as a premium brand focused on refined design and superior craftsmanship.

TODAY

Operating from a 30,000+ sq. ft. facility with 60+ skilled craftsmen and advanced manufacturing capabilities.

NEXT

Working towards a 1,00,000 sq. ft. vision, scaling innovation and excellence for future generations.

IN-HOUSE MANUFACTURING

1.

CUTTING & FORMING

CRCA steel sheets are precisely cut and shaped using dedicated dies for accurate, repeatable results.

2.

WELDING & ASSEMBLY

Components are expertly assembled and reinforced to create strong, durable structures built for everyday use.

3.

SURFACE PREPARATION

Each unit undergoes thorough treatment and finishing processes to ensure a smooth, long-lasting surface.

4.

3-COAT POWDER FINISH

A premium three-layer powder coating delivers superior aesthetics, corrosion resistance, and lasting durability.

WE DO'NT USE REGULAR MS. WE USE CRCA.

SUPERIOR SURFACE FINISH

Smooth, even surfaces ensure better paint adhesion and a refined appearance.

ENHANCED STRENGTH

Higher hardness reduces dents, wear, and everyday damage.

PRECISION ENGINEERING

Consistent thickness and accurate dimensions ensure perfect fit and finish.

LASTING PROTECTION

Treated steel and a durable powder-coated finish provide excellent resistance to rust and corrosion.

ENGINEERED USING PREMIUM CRCA STEEL

Every Gopinath product is crafted using CRCA (Cold Rolled Close Annealed) steel, a premium-grade material chosen for its strength, precision, and durability. Naturally termite-proof, highly durable, fire-resistant, and low maintenance, it withstands daily wear, impacts, and harsh conditions while retaining its structural integrity. Resistant to warping and cracking, CRCA steel delivers superior performance, enhanced protection for important belongings, and a longer product lifespan with minimal upkeep.
